

Our product range at a glance

Gaskets and Gasket Materials

novaphit®
Graphite gaskets –
pure graphite reinforced
with stainless steel insert

novatec®
Graphite gaskets –
fibre-reinforced graphite

**novapress®
novaform®**
Compressed fiber gaskets

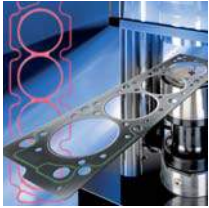

novaflon®
PTFE-gaskets

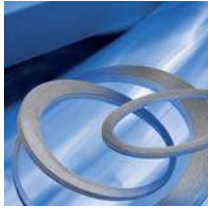

novaform®
Metal gaskets,
dispenser gaskets,
silk screen gaskets

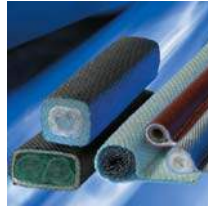

HICOTEC® HPG
Coating material with
sealing function

novaplan®
Facing material for
cylinder head gaskets

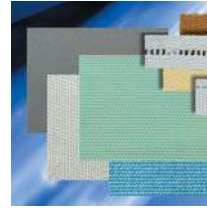

novaSEAL®
Boiler rings

**Tadpole tapes,
wound packings,
and layered tapes**
Fabric gaskets

**Technical cords
and braids**
Static sealing materials

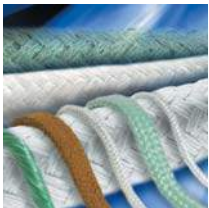

**Technical tapes
and woven fabrics**
Textile sealing materials

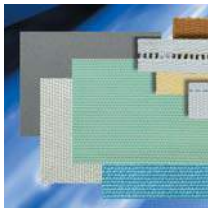

isoplan®
High-temperature
gaskets

Technical Textiles

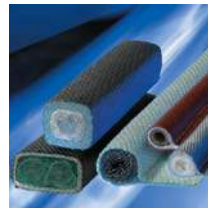

**Technical cords
and braids**
for sealing and
insulation

**Technical tapes
and woven fabrics**
for sealing and
insulation

Technical needlemats
for thermal and acoustic
insulation and filtration
industry

**Tadpole tapes,
wound packings,
and layered tapes**
for sealing applications

Thermal blankets
to protect people and
property

Acoustic pillows
for acoustic and heat
insulation

novaSEAL®
Boiler rings

novaTEX®
Temperature resistant
insulation materials
up to 250 °C

novaTEX® GOLD
Temperature resistant
insulation materials
up to 450 °C

INSULATION

NEW MATERIALS

 **Frenzelit**

creating
hightech
solutions

Expansion Joints

Fabric expansion joints

Elastomer expansion joints

PTFE compound material expansion joints

PTFE expansion joints

Rubber expansion joints

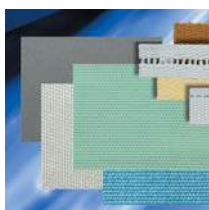

Steel expansion joints

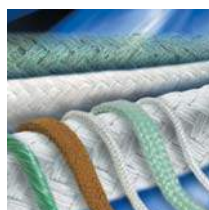

Insulation

Technical needlemats
Textile insulation materials

Technical tapes and woven fabrics
Textile insulation materials

Technical cords and braids
Textile insulation materials

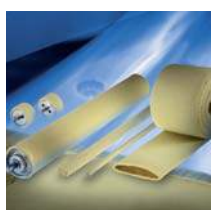

isoplan®
High-temperature insulation sheets

Acoustic pillows
for acoustic applications and thermal insulation

Thermal blankets
to protect people and property

novaTEX®
Temperature resistant insulation materials up to 250 °C

novaTEX® GOLD
Temperature resistant insulation materials up to 450 °C

New Materials

HICOTEC® CA
Clean Air Technology

HICOTEC® TP
Thermal Power – solutions for radiant heating

HICOTEC® NE
New Energy – revolutionary solutions for energy generation and storage

HICOTEC® CF
Fibre-reinforced composite films made from high-performance polymers

HICOTEC® HPG
Highly resistant coating with lowest wear rates
